CAREER OBJECTIVE

Motivated Information Technology undergraduate at the University of Moratuwa with an interest in front-end and full-stack development. Seeking opportunities to apply technical, problem-solving, communication and teamwork skills while gaining practical experience in the IT industry.

EDUCATION

University of Moratuwa BSc (Hons) in Information Technology Faculty of Information Technology Moratuwa, Sri Lanka	2024 - 2028 (Expected)
BT/BT/Mahajana College G.C.E. Advanced Level - Engineering Technology Stream	2022 - 2023

ACADEMIC PROJECT EXPERIENCE

FindU - Campus Lost & Found Management System

React.js, Node.js, Express.js, MySQL, JavaScript

- Developed a full-stack platform for students and staff to report, browse and manage lost and found items.
- Implemented authentication, image-based reporting, ownership claims, personal tracking and CRUD operations.
- Built an admin dashboard and integrated REST APIs with MySQL for user, item and claim management.

SewLogix - Smart Tailoring Management System

React.js, Vite, Node.js, Express.js, MySQL, CSS

- Developed a full-stack system for customer, measurement, order, inventory, payment and reporting workflows.
- Implemented order tracking, balance calculations, low-stock alerts, invoice printing and responsive dashboard features.
- Integrated a React frontend with Node.js/Express REST APIs and a MySQL database.

RoverXplorer - Six-Wheeled Environmental Monitoring Rover

Feb 2025 - Jul 2025

Arduino, ESP32, Python, React, JavaScript, EasyEDA, LoRa, Bluetooth | University of Moratuwa

- Programmed joystick-based motor control for a six-wheeled rocker-bogie rover using Arduino and BTS7960B drivers.
- Designed a custom PCB in EasyEDA and integrated sensors, microcontrollers and wireless communication modules.
- Developed a Python and React dashboard to process and visualize environmental sensor data in real time.

The Lost Kite - 2D Graphics Animation

C, OpenGL, FreeGLUT, Bresenham Rasterization, 2D Animation

- Built a story-driven graphics application with 10 animated scenes using C and FreeGLUT.
- Applied Bresenham line/circle rendering, time-based animation, scene transitions and orthographic projection.
- Collaborated in a five-member team to develop modular scenes, environmental effects and animation functionality.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, Angular, React.js, Responsive Web Design

Backend / Database: Node.js, Express.js, Python, MySQL, REST API Integration

Programming: JavaScript, Java, Python, C

Tools & Platforms: Git, GitHub, VS Code, Vite, Docker, Arduino IDE

Hardware / Other: Arduino, ESP32, EasyEDA, OpenGL / FreeGLUT

SOFT SKILLS

Communication | Teamwork | Problem Solving | Time Management | Adaptability

CERTIFICATIONS

- University of Moratuwa / CODL: Front-End Web Development, Web Design for Beginners, Python Programming, Python for Beginners
- Simplilearn SkillUp: Full Stack Development, Introduction to Cyber Security, OOPs in Java, Generative AI Studio, GitHub Basics, Getting Started with Docker

LANGUAGES

Tamil: Native | English: Professional working proficiency | Sinhala: Basic
